SUMMARY

Senior System Administrator with 2+ years of experience working with clients and collaborating with colleagues. Results-oriented professional recognized by peers for my effective communication and critical thinking skills. Proficient Front End Developer effective in using JavaScript and the React Ecosystem to accomplish design requirements. Skilled in React and NextJS. Adept at implementing modern frameworks to meet customer expectations.

EXPERIENCE

- ### *Senior Analyst*

  Capgemini Technology Services India Ltd - Bengaluru, KA
  SEP/2021 - DEC/2023
  - Configured and maintained system hardware, software and network components.
  - Maintained strict access controls and permissions management, resulting in zero security breaches or data leaks for two consecutive years.
  - Received positive feedback from stakeholders for consistently resolving complex technical issues within short time frames and exceeding service level agreements

EDUCATION

- ### Bachelor of Engineering, *Information Science and Engineering*

  CMR Institute of Technology, Bengaluru, KA

  JUNE/2017 - AUGUST/2021

  CGPA **7.7/10**

SKILLS

- HTML
- CSS
- SCSS
- Tailwind CSS
- JavaScript
- React
- Redux & Redux toolkit
- Tanstack Query
- React router
- React Hook Form
- Next.js
- Git

PROJECTS

- ### *WorldWise*🔗

  This project involved creating a travel logging and note app using React and the Leaflet.js library to allow users to log their travel activities and add notes to specific locations on a map, providing them with a convenient way to document and remember their experiences.

- ### *Fast React Pizza*🔗

  A beautifully designed SPA (Single Page Application) using React. The goal was to provide users with a convenient way to order pizzas online.

TRAINING

- ### JavaScript Bootcamp

  Udemy
